AB 2-Substituted benzothiazoles I (Z = S, O), II (R = 2-H₂NC₆H₄, CH₂CH₂NH₂), and III [R = CO₂Et, cyclohexanecarbonyl, C(OH)Et₂, CONHNH₂] were prepared as bactericides. Thus, 2-benzothiazolemalonaldehyde was heated with urea in EtOH to give I (Z = O). The etherification of Na 2-benzothiazolethiolate by BrCH₂CO₂Et gave III (R = CO₂Et).
